# 4 Foot Veteran Bench with Arms 

Congratulations!!
You have just purchased the finest recycled plastic park bench available. Enjoy !!!

## Before assembly, please make sure all components are included.

D - Bench Arm

C $-2 \times 6$ Bench Board w/ Arm Holes

E - $2 \times 6$ Bench Board w/ Arm Holes

(2) - Two Bench Arms BSA-TBA-A-00
(2) - Two Bench Ends PS-SBBE-T-03
(3) - Three Bench Boards BP-TB4B-A-02
(1) - One Bench Board BP-TB4BA-A-03
(1) - One Bench Board BP-TB4BA-B-00

Before assembly, please make sure all fasteners are included.

24 - \#12 x 3" Flat Head Phillips Screw

Also needed for this assembly will be the following materials:
1 - \#3 Phillips Drive Bit

## *IMPORTANT NOTICE*:

- DO NOT OVER-TIGHTEN SCREWS.
- USE A DRILL WITH ADJUSTABLE TORQUE FOR BEST RESULTS.
- OVER-TIGHTENING WILL RESULT IN STRIPPING OUT THE PILOT HOLE, AND SCREW WILL "SINK" INTO THE PLASTIC WHICH MAY CAUSE A STRESS FRACTURE.

Step \#1:
Stand (1) One bench end (Part B) upright and place (1) One bench board (Part A) on position 1 being sure to align the pre-drilled holes to the pilot holes in the bench end. After the holes are properly aligned, fasten with (1) One \#12 x $3^{\prime \prime}$ Flat Head Phillips Screw in the top pre-drilled hole.

Notes:
Do not tighten screw completely. This will be done in a later step.

Step \#2:
Stand the other bench end (Part B) upright and place the bench board (Part A) already attached to the first bench end, on position 1 being sure to align the pre-drilled holes to the pilot holes in the bench end. After the holes are properly aligned, fasten with (1) One \#12 x $3^{\prime \prime}$ Flat Head Phillips Screw in the top pre-drilled hole.

Note: Do not tighten screws completely. This will be done in a later step.

Step \#3:
Align bottom pre-drilled holes to the pilot holes in the bench end (Part B). After the holes are properly aligned, fasten with (1) One \#12 $\times 3^{\prime \prime}$ Flat Head Phillips Screw per hole.

Note: Be sure to tighten screws completely after this step.

Step \#4:
Place a bench board (Part A) on position 5. Repeat Steps $1-3$ to attach. Use (1) One \#12 x 3" Flat Head Phillips Screw per hole to fasten.

Step \#5:
Repeat Steps 1-3 to attach bench boards (Part A) on position 3. Attach bench board $w /$ arm hole (Part C) on position 2 and bench board w/ arm hole (Part E) on position 4. Use (1) One \#12 $\times 3$ " Flat Head Phillips Screw per hole to fasten.
*** When attaching bench board (Part C) in position 2 letter " C " engraved on board will be at left side of the bench. When attaching bench board (Part E) in position 4 letter " $E$ " engraved on board will be on the left side of the bench.

Step \#6:
Position the bench arms (Part D) as shown above. Align the pilot holes to the pre-drilled holes in the bench board w/ arm holes. After the holes are properly aligned, fasten with (1) One \#12 $\times 3^{\prime \prime}$ Flat Head Phillips Screw per hole.
