FS-ET8B-CAP-00

Before assembly, please make sure all fasteners are included.

40 - #12 x 3" Flat Head Phillips Screw

Also needed for this assembly will be the following materials:

1 - #3 Phillips Drive Bit

Fig #1:

In order to make the assembly of this Traditional Bench easier while going through the assembly process the board positions are numbered and will be referenced in later steps.

Step #1:

Stand (1) One bench end upright and place (1) One bench board on position 1 being sure to align the pre-drilled holes to the pilot holes in the bench end. After the holes are properly aligned, fasten with (1) One #12 x 3" Flat Head Phillips Screw in the top pre-drilled hole.

Note: Do not tighten screw completely. This will be done in a later step.

Step #2:

Stand the other (3) Three bench ends upright, one at a time, and place the bench board already attached to the first bench end, on position 1 being sure to align the pre-drilled holes to the pilot holes in the bench end. After the holes are properly aligned, fasten with (1) One #12 x 3" Flat Head Phillips Screw in the top pre-drilled hole.

Note: Do not tighten screws completely. This will be done in a later step.

Step #3:

Align bottom pre-drilled holes to the pilot holes in the bench end. After the holes are properly aligned, fasten with (1) One #12 x 3" Flat Head Phillips Screw per hole.

Note: Be sure to tighten screws completely after this step.

Step #4:

Place a second bench board on position 5. Repeat Steps 1 - 3 to attach. Use (1) One #12 x 3" Flat Head Phillips Screw per hole to fasten.

Step #5:

Repeat Steps 1 - 3 to attach bench boards on positions 2, 3 & 4. Use (1) One #12 x 3" Flat Head Phillips Screw per hole to fasten.
